

CONNECTING THE DOTS

TYCA-SW 2010 Conference • Laredo, Texas

Laredo Community College invites you to the 45th TYCA –SW Conference in Laredo, TX on October 21- 23, 2010 at the historic La Posada Hotel. We welcome individual presentations, small group panel discussions, and workshops focusing on our conference theme “Connecting the Dots”. Today, we work with the most expressive and tech savvy generation of students in our rapidly changing world. Though some are not fully prepared, most of the students are optimistic, empathetic, world aware, and hopeful of the future. With our advanced technology of e-mail, Twitter, blogs, and Facebook, these

“Billionnials” are communicating every second. We seem to live in a world where anything seems to go. How do we connect the dots to align traditional writing and literature with their world? How do we make them connect the dots? As instructors, are we on a collision course or harmonizing? How do we inspire our students to become careful readers, critical thinkers, and thoughtful writers? How do we help them connect the dots between literature and composition, college, career, and future endeavors?

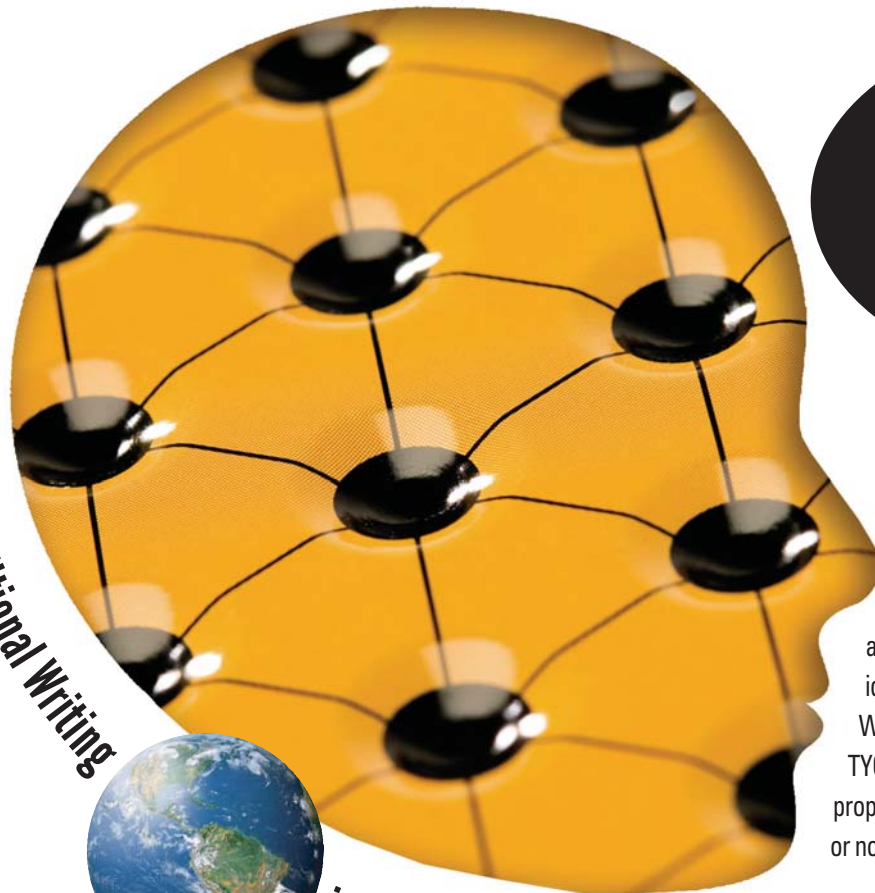

CALL FOR PAPERS

We would like to hear what you are doing in your composition and literature classes to instill an appreciation for literature and writing in your students. Consider the following for your proposals as they relate to helping students make the connection between their world and the academic world of literature or writing: Reading and Writing in developmental and transfer level courses, Literature and Writing, Reading and Writing across the curriculum, Reading Culture across the campus, Team Teaching, Learning Communities, On-line Tutoring, or any other relevant idea of interest that focuses on the conference theme.

We would be delighted to feature your presentation at the Annual Conference of the TYCA South West in Laredo, and we also welcome creative writing proposals for reading poetry, a short story, a book chapter, or novel excerpt.
